# Greetings

To Home Gardeners:

The trend of the times is for people to want a piece of land in the outskirts of the city, at the lake, or actually in the country; which presupposes a garden of some kind, large or small. Perennials are the backbone of the garden and will provide continuous color when selected for the various seasons of bloom. While developing the perennial border the spaces may be filled with colorful annuals.

We are located so near the Lake Minnetonka communities and Minneapolis suburbs that plants transplanted from our garden will hardly know they have been moved. Plants that do well in our garden should do well for you, for they have the same climate, and general growing conditions. A pleasant drive will bring you out to our garden to see for yourself what nice plants we have to offer.

PLANTS 35 CENTS UNLESS OTHERWISE LISTED.

- ACHILLEA SHOWY ROCK OR BORDER PERENNIAL.  
ATHEONEMA PERSIAN CANDYTUFT, WARLEY ROSE,  
ROSE PINK.  
AGROSTEMA SILVERY FOLIAGE, BLOOD RED FLOWERS,
